Welcome to HelpNDoc

 **Way up there**
Use the Ribbon tabs to access
all the HelpNDoc actions

Library
Add reusable item and
insert them in topic 

 **Table of contents**
Click on each topic to navigate to
them and access their content

A warm welcome!

Thank you very much for using HelpNDoc. We believe that you'll quickly feel comfortable with HelpNDoc and that you'll never see documentation creation the same way from now on. We even think you will enjoy it soon.

This tutorial project will let you get acquainted with the basic functionalities of HelpNDoc. Let's have a look at the user interface to get started... Use the table of contents on the left to navigate to the **Add content to a topic** item by clicking on it.

Add content to a topic

Congratulations, you did it

You now know how to navigate between topics: just click on a topic to select it and see its associated content.

Now let's try to add some content to the topic:

- Click below the text **Enter your content below...**
- Type in some text
- Click the **Write** ribbon tab at the top of the window to access to formatting options and experiment
- Once done, you can click the next topic: **Add a picture**

Enter your content below...

Add a picture

Because "a picture is worth a thousand words"

Adding a picture to HelpNDoc is a two-step action:

- First we add it to the library
- Then we place it inside the topics

HelpNDoc makes it straightforward by providing the Insert picture action which handles everything for you:

- Place your cursor below **Add your picture below...**
- Click the **Insert** ribbon tab at the top of the window
- Click the **Insert picture** button then **Insert another picture**
- Click the **No file included** link then choose **Include file**
- Choose your picture and click OK: your picture is inserted in the library and in the topic
- Once done, you can click the next topic: **Generate documentation**

Add your picture below...

Generate documentation

Let's spread it to the world

We are now ready to generate our first documentation...

- Click the **Home** ribbon tab at the top of the window
- Click the top part of the **Generate help** button in the **Project** group
- Leave default settings in the window and click **Generate**
- That's it, you can now review your documentation

Let's see how to create new topics... click the **Create new topics** item in the table of contents.

Create new topics

The more, the merrier...

Let's try creating a new topic now:

- Click the **Home** ribbon tab at the top of the window if it is not already selected
- Click the **Add topic** button in the **Table of contents** group
- That's it, your new topic has been created. You can now enter some content in it

That's all folks!

You now know the basics of HelpNDoc and see how easy it is to create your documentation.

- You can now start your own project by using the File menu at the top then click New project
- You can learn more by reading HelpNDoc's documentation: click the help icon at the top right of the window

- Finally, you can contact us anytime if you have questions, concerns or praises about HelpNDoc by using the following form: <http://www.helpndoc.com/contact>
